

B1
94. The memory according to claim 93, additionally comprising an erasing circuit to simultaneously erasing the individual cells within individual locations.--

REMARKS

This Amendment is being filed prior to the substantive examination of the present patent application in order to substitute a new set of claims for those originally filed in the present application. The new claims are generally directed to the subject matter claimed in granted parent patent no. 5,602,987 but are of different scope and expressed in different terms.

An Information Disclosure Statement was initially filed with this continuation application and a Supplemental Information Disclosure Statement is being filed herewith. The initial Statement was filed without copies of the references, pursuant to 37 C.F.R. 1.98(d). However, if the Examiner would like copies of all or specific ones of the references to be filed in this application, the undersigned would be happy to have any desired copies made and promptly hand delivered to the Examiner. The Examiner is invited to telephone the undersigned if any such copies would be useful.

An early examination and allowance of this application is solicited.

Dated: August 7, 1997

Respectfully submitted,

Gerald P. Parsons
